2002 PILATUS PC-12/45 S/N 445
AVAILABLE FOR SALE

UNIQUE FEATURES

This Pilatus PC-12/45 is an excellent example of a commuter interior aircraft. This aircraft has a factory 9 passenger commuter interior and is ready to be put on an airline or Part 135 certificate. SN445 is currently based in New Zealand, but can be repositioned to North America or anywhere else in the world. This PC-12 has been well maintained by a reputable operator and has been well upgraded with a 5-blade MT propeller and newer Garmin GTN 650/750. The most notable part of this aircraft is its almost brand new from factory engine with only 281 hours on it since new. The engine was replaced with a brand new engine through the Pratt & Whitney FEP program at the last overhaul interval and includes the P&WC FAST Engine Trend Monitoring System. This is a great opportunity for anyone looking for a commuter PC-12, as commuter interiors are almost impossible to come.
